DETAIL ACTION

This office acknowledges of the following items from the Applicant:

Information Disclosure Statement (IDS) filed on 10/31/2003 and made of record.

The references cited on the PTOL 1449 form have been considered.

Specification

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

This application is in condition for allowance except for the following formal matters:

Claims 1, 4 and 9 are objected to because of the following informalities:

In line 2 of claim 1, change the term “the rate at which ions are implanted” to -- a rate at which ions are implanted --

In line 3 of claim 1, change the term “the rate pressure” to – a rate pressure –

In line 4 of claim 1, change the term “the rate at which neutral atoms are implanted” to – a rate at which neutral atoms are implanted - -

In claim 4, it is requested that Applicants spell out the acronym “GSD” so as to avoid any possible confusion as to the meaning of this term. Appropriate correction is required.

In line 2 of claim 9, change the term “the rate at which neutral atoms are implanted” to -- a rate at which neutral atoms are implanted - -

In line 9 of claim 9, change the term “the rate pressure” to – a rate pressure – in order to particularly define the subject matter which Applicants regard as the invention.

Reasons for Indication of Allowable Subject Matter

Claims 1-9 would be allowed. The following is an examiner’s statement of reason for allowance: None of the references of record teaches or suggests the claimed Improved method of calculating a pressure compensation recipe for a semiconductor wafer implanter with the step of while implanting a first wafer using a first pressure compensation factor, determining a rate at which ions are implanted and among other steps/limitations as cited in independent claims 1 and 9.

If Applicants are aware of better art than that which has been cited, they are required to call such to attention of the examiner.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
